DETAILED ACTION

Allowable Subject Matter

Claims 1-4 are allowed.

Claims 5-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to process and apparatus for mineral processing, classified in class 241, subclass 23.
- II. Claims 10-13, drawn to a cosmetic composition, classified in class 424..
- III. Claim 14, drawn to a process for forming a cosmetic preparation, classified in class 424.

The inventions are distinct, each from the other because of the following reasons:

Groups II and III are separate from Group I because they do not require the steps and elements of Group I. Groups II and III are separate from each other because Group II does not require the steps of Group III.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Michelle Evans on 10/22/02 a provisional election was made with the right to traverse to prosecute the invention of Group I,

claims 1-9. Affirmation of this election must be made by applicant in replying to this Office action. Claims 10-14 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Specification

Footnotes used throughout the specification should be deleted.

Claim Rejections - 35 USC § 112

Claims 5-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 5 is indefinite because process claims should not depend on apparatus claims. In claim 8, what process step is being claimed?

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
